

YOUR DESIRE

When you feel me slipping away
When you feel me dying today
Can you just let it get to you
Can you just let it burn in you

Chorus

Your desires burning
Holes in my heart
Your desires burning
Holes in my heart
Your desires burning
Holes in my heart
Your desires burning
Holes in my heart

Touch me and I fall to my knees
Flames shooting from the emotions I see
I feel you when you step into my world
You're like fire on an icy planet
Melting all that you see

You are burning in me
You are burning in me

When I feel you burning with me

Your desires burning
Holes in my heart
Your desires burning
Holes in my heart
Your desire burns
Holes in my
Your desire burns
Holes in my

Your desires burning
Holes in my heart
Your desires burning
Holes in my heart
Your desires burning
Holes in my heart
Your desires burning
Holes in my heart

Guitar solo

Your desires burning
Holes in my heart
Your desires burning
Holes in my heart
Holes in my heart
Holes in my heart
