

## DREAMS

can you hear them in the dark  
calling my name  
do you see their empty eyes  
staring at me  
can you feel them in the night  
strangers with faces so cold

take those dreams away  
i'm waiting for salvation  
take my fears away  
i'm waiting for the dawn  
take those dreams away  
i'm waiting for the dawn

shadows all around me  
follow every step I take  
whispers in the darkness  
no place to hide  
help me to get out of here  
i'm trying to escape the night  
and never fall asleep  
never fall asleep

take those dreams away  
i'm waiting for salvation  
i'm waiting for the dawn

shadows  
fear  
darkness  
salvation

take those dreams away  
i'm waiting for salvation  
take my fears away  
i'm waiting for the dawn  
take those dreams away  
i'm waiting for the dawn
